CLASSIFICATION OF SERVICE

Schedule 2B-C

Street Lighting Service

RATE
PER UNIT

Applicable:

Entire territory served.

Availability of Service:

Available for street-lighting systems, including street lighting, signal systems, and roadway and park lighting. All service furnished under this rate and classification are subject to the established rules and regulations of the cooperative covering this service.

Type of Service:

Alternating-current service, either series or multiple system or in combination at option of Distributor.

Rates:

The rate for this service consists of two parts, as follows:

I. Investment Charge

The annual investment charge (for the cost of operation, maintenance, taxes, and depreciation, and for return on investment) shall be 12 percent of the investment in the street-lighting system, determined as set forth below. Such charge shall be adjusted under the circumstances set forth below. This charge will be recomputed on July 1 of each year and one-twelfth of the total annual charge so computed will be billed customer monthly.

II. Energy Charge

CLASSIFICATION OF SERVICE

Schedule 2B-C - Continued

**RATE
PER UNIT**

Minimum Bill:

Consumers and municipalities receiving service under the above rate will be required to execute contracts for minimum terms of one year. The minimum monthly charge shall be the minimum charge specified in the contract for service.

Method of Determining Distributor's Investment:

The investment in property and equipment used as a basis for the investment charge contained in this schedule shall consist of the cost of such property and equipment, including the full amount shown in the plant account entitled "Street Lighting and Signal System." If any part of the street-lighting system has not been built at the expense of the Distributor, a deduction shall be made from the annual investment charge in the amount of 6 percent of the investment in such part.

Lamp Renewals:

Distributor shall keep a record of the number and type of lamp replacement and customer shall be billed monthly for the replacements during the month at actual cost to Distributor, including appropriate overheads.

Relocation of Lamps:

Distributor shall, at the request of customer, relocate or charge existing equipment. Customer shall reimburse Distributor for such changes at actual cost, including appropriate overheads.

Metering:

All energy consumed under this schedule shall be metered excepting installations where, in the opinion of Distributor, metering would be impracticable.

When the consumption is metered, the meters shall be installed in or connected to the lighting circuit and the billing shall include the energy delivered to and consumed in all circuits and equipment used exclusively for street lighting purposes.

RATE
PER UNIT

Metering: - Continued

If more than one meter is used, the readings shall be consolidated for billing purposes.

When the energy is not metered and also when a meter reading is found to be in error, the consumption for billing purposes shall be computed from the rated capacity of the lamps plus 5 percent for losses, multiplied by the number of hours of use.

Payment:

The rates included herein are net, the gross rates being 10 percent higher. In the event the current monthly bill is not paid within 10 days from due date, the gross rates shall apply.
