C. METERS

15. METER TESTS

All new meters shall be checked for accuracy before installation. The Cooperative will, at its own expense, make periodical tests and inspections of its meters in order to maintain a high standard of accuracy and to conform with the regulations of the Public Service Commission. The Cooperative will make additional tests of meters at the request of the member, provided the member does not request such test more frequently than once in twelve (12) months and upon payment of a fee for obtaining and testing of \$20.00 (twenty dollars) paid in advance. When the test made at the member's request shows that the meter is accurate within 2% slow or fast, no adjustment will be made to the member's bill and the fee paid will be forfeited to cover cost of requested test. When the test shows the meter to be in excess of 2% fast or slow, an adjustment shall be made to the member's bill by recalculating the monthly bills for that period of time that it is known that the meter has been fast or slow; however, if that period of time is not known, then a period equal to one-half (1/2) of the time lapsed since the last previous test, but in no case shall this period exceed twelve (12) months. However, if a meter tests fast and if time for periodic test has overrun such that one-half (1/2) of the time elapsed since the last previous test exceeds twelve (12) months, then the refund shall be for twelve (12) months, plus those months exceeding the periodic test period. The cost of testing and obtaining the meter found to be more than 2% fast will be borne by the Cooperative and the \$20.00 (twenty dollars) test fee paid by the member will be refunded.

16. FAILURE OF METER TO REGISTER

In the event a member's meter should fail to register, the member shall be billed from the date of such failure at the average consumption of the member based on the three (3) months period immediately preceding the failure or the same billing period the past year.

27. PURPOSE OF CLASSIFICATION

Classification is a means for treating without discrimination, all members having similar characteristics in their use of service. Special classification will be avoided unless surrounding conditions are so unusual that to apply one of the existing rates or rules would result in serious injustice to either the particular member or to all other members. Certain installations may be unmetered and be billed a set monthly rate. These are to be installations that the monthly usage is fairly constant. These services, more specifically are: Certain cable TV amplifiers, railroad crossing signals, etc., that cause great difficulty in maintaining metering equipment. (See Schedule TVB).

28. CLASSES OF SERVICE

Members of the Cooperative are served under the following classification and applicable rate schedules:

Schedule A - Residential, Farm and Non-Farm
Schedule A - Public Buildings
Schedule B - Small Commercial
Schedule LP - Large Power
Schedule OPS - Optional Power Service (Limited to 300 KVA)
Schedule OL - Outdoor Lighting (Security Lights)
Schedule STL - Street Lighting
Schedule TVB - Unmetered Commercial Service
Schedule CTA - Cable Television Attachment

For information as to the availability, rates, charges, type of service terms, etc., of the above mentioned services, see applicable rate schedule, a copy of which is attached hereto and made a part thereof.

F. LINE EXTENSIONS

29. DISTRIBUTION LINE EXTENSION (Overhead)

- A. It shall be the policy to extend distribution lines to any permanent metered service with extra charge providing the extension is not beyond 1,000 feet.
1. For an extension beyond 1,000 feet (excluding service drop) the customer may be required to pay the cost of the additional extension. The cost shall be the average cost per foot as determined for an average mile of line and which will be kept on file at the Cooperative office for viewing by the public and will be updated periodically.
 2. Each customer receiving service under such extension will be reimbursed under the following plan: Each year for a period of not less than 10 years, which for the purpose of this rule shall be the refund period, the utility shall refund to the customer or customers who paid for the excessive footage the cost of 1,000 feet of the extension in place for each additional customer connected during the year whose service line is directly connected to the extension installed and not to extensions or laterals therefrom, but in no case shall the total amount refunded exceed the amount paid the utility. After the end of the refund period, no refund will be required to be made.
 3. Subdivisions - A proposed real estate subdivision may be required to pay the entire cost of the extension. Refunds for this advance may commence in 12 (twelve) months.
