is ultimately managed by The Gores Group, and its manager, Alec E. Gores.¹ The Gores Group is a private investment firm whose investment focus includes opportunities in the technology and telecommunications sectors. The Gores Group currently acts as the manager of the general partner of certain investment funds that together hold non-controlling ownership of 13.1 percent of the voting stock of FCI through Gores FC Holdings, LLC (“Gores FC Holdings”).

Gores is well-qualified managerially, technically and financially to own and control FCI and the Operating Companies. In particular, The Gores Group has created an internal operations team which has a history of enhancing the value and operations of its investment companies by focusing on customers and employees, supporting management with operational expertise and providing access to capital. In addition to the well-qualified management and operations teams of FCI and the Operating Companies that will remain with the companies following the transfer of control, The Gores Group and its affiliates also have an extensive background in acquiring and managing network services, software and computer hardware companies.

Gores is financially qualified to take control of FCI and the Operating Companies. In addition to its own capital resources, through an established network of debt financing sources and investment partners, The Gores Group also provides access to capital for its portfolio companies.

Description of the Transactions

Gores will acquire control of FCI and the Operating Companies by a combination of the exercise of the right to appoint a majority of the Board of Directors and/or the purchase/acquisition of voting securities of FCI either directly or through Gores FC Holdings, as a result of which Gores will directly or indirectly hold more than 50 percent of the voting securities of FCI. For the Commission's convenience, pre- and post-transaction illustrative charts are provided as Exhibit A.

Because the proposed transaction will be completed at the holding company level, the Parties expect that the proposed transaction will be entirely transparent to customers of the Operating Companies. The proposed transaction will not result in any change to the day-to-day operations of the Operating Companies. Furthermore, the Operating Companies do not anticipate that the proposed transaction will have any effect on their rates, terms or conditions of service. As a result, the proposed transaction will not directly affect any end user customers of the Operating Companies or the services they currently receive.

Public Interest Considerations

The Parties submit that the transfer of control transaction described herein will serve the public interest. Following consummation of the proposed transaction, the Operating Companies will have access to the financial and managerial oversight and expertise of Gores. Such support will strengthen the competitive position of the Operating Companies to the benefit of the telecommunications marketplace. Moreover, no existing or potential competitors will be eliminated as a result of the proposed transaction. Instead, the Operating Companies will continue to provide service to their customers, furthering the Commission's policies favoring competition and diversity of services.

The proposed transaction will be conducted in a manner that will be transparent to customers of the Operating Companies. The transfer of control of the Operating Companies will not result in a change of carrier for customers or any assignment of authorizations. In addition, the Operating Companies will continue to provide high-quality communications services to their customers without interruption and without immediate change in rates, terms or conditions. Accordingly, the transaction will be virtually transparent to customers, and in no event will it result in the discontinuance, reduction, loss, or impairment of service to customers.
