4. Brief Description of the Type of Service Affected (47 C.F.R. §§ 63.71(a)(4) and (c)(2)):

In February 2017, Verizon acquired XO, which provides various communications services to small and medium sized companies, enterprises, national and government customers,

¹ XO does not offer these services in Alaska or Hawaii.

and other carriers, both on a retail and wholesale basis.² XO does not provide mass-market retail services to consumers.³ The XO services in this Application overlap or are redundant with those offered over Verizon's networks and platforms, and XO is therefore streamlining its offerings to maximize efficiencies and to provide enhanced services for customers. The services XO seeks to grandfather are described as follows:

- Ethernet Private Line provides point-to-point Ethernet connectivity and is ideal for businesses looking for dedicated bandwidth between office locations.
- IP-VPN MPLS is an application-aware, private Wide Area Network that securely connects all of a customer's enterprise locations. The service can include features such as class of service, multicast, and AWS Direct Connect.
- XO IP Flex is a bundle of business communications services that includes local and long distance voice, Internet access, and a variety of calling features.
- XO ESIP uses a centralized IP-PBX at a primary location to deliver VoIP to other company locations using an existing private network or the XO IP-VPN MPLS service.
- Ethernet Hub provides point-to-multipoint Ethernet connectivity to connect remote branch offices or locations to centralized headquarters and/or data centers.
- IP VPN VPLS is a two-layer networking service that supports traditional private data networking with class of service over an MPLS core network.
- Private Line TDM Transport is a high speed, high capacity, low latency, service that enables transmission of time-sensitive or business critical data among customer locations. This service includes DS1, DS3, OC3, OC12, and OC48.
- IP Flex with VPN is a VoIP integrated voice and data service delivered over XO's IP-VPN network.
- Wavelength is XO's Ethernet point-to-point offering delivered over fiber facilities.
- Colocation is a service that provides physical space and power to XO data centers and customers.
- Hosted PBX is a scalable unified communications solution that uses cloud technology to deliver integrated high definition voice and data services, collaboration tools, mobility, and contact center functions, along with advanced calling features across all of the customers' business locations.
- Long Distance and Toll-Free services offered in association with XO IP Flex, XO IP Flex with VPN, Hosted PBX, and XO ESIP allows customers to make interstate and international long distance telephone calls.

² See *In the Matter of Applications of XO Holdings and Verizon Communications Inc. for Consent to Transfer Control of Licenses and Authorizations*, Memorandum Opinion & Order, DA 16-1281, ¶ 5 (Nov. 16, 2016) (granting applications to transfer control of licenses and authorizations in connection with Verizon's acquisition of XO Communications, LLC).

Alternative Services and Products: Because these services are being grandfathered, existing customers may retain their current services. Customers today may also obtain alternative services and products from Verizon or other providers that perform the same functions as these services. Alternative products and services offered by other Verizon affiliates include: Dedicated E-Line; WaveLength; Private IP; Private Line TDM; Ethernet Switched E-Line; Ethernet Switched ELAN; Verizon IP Flex; Verizon Colocation; Verizon ESIP; and Verizon Hosted PBX; and long distance service offerings. Verizon will work with affected customers who so choose to find suitable alternative solutions.

5. Brief Description of the Dates and Methods of Notice to All Affected Customers (47 C.F.R. § 63.71(c)(3)):

Customers that currently subscribe to the affected services were sent notices by U.S. mail on or before November 1, 2019. A copy of the notice is attached as Exhibit A.⁴

Separately, on November 1, 2019, copies of this Application were mailed first class U.S. Mail to the public utility commission and to the Governor of each affected state, federally-recognized tribal nations in each state, and the Secretary of Defense, Attention Special Assistant for Telecommunications, as required by Section 63.71(a) of the Commission's rules.

6. Regulatory Classification of Carrier (47 C.F.R. §§ 63.71(c)(4)):

XO is classified as non-dominant for regulatory purposes with respect to the services to be discontinued.

⁴ Current customers for these services include public sector, enterprise, and small/medium businesses. The text for all of the notices is identical, with the exception that the contact phone number and/or email address is tailored to the specific customers. Public sector customer notices include contact information of 1-800-296-7595 and VPS.Migration.Inquiries@verizon.com. Small/medium business and enterprise customer notices include contact information of 1-800-295-8189 or 1-800-296-7595.

CONCLUSION

XO respectfully requests that the Commission approve this Application.

Respectfully submitted,

William H. Johnson

Changes to Selected XO Communications Services

Dear Valued Customer,

This is a formal notification about upcoming changes to some of the services offered by XO Communications.¹

As you know, XO Communications became a member of the Verizon family in February 2017 and as a result, XO customers will be able to benefit from the reliability and scalability of the Verizon network. In spring, 2020, we're merging the XO and Verizon service platforms into one solution, with integrated ordering, a common interface for provisioning services, and a single billing system. There will be no changes to the underlying network and IP addresses.

As part of this change, you will be receiving a new bill format, a new online portal to administer your services, and the following two service adjustments will take place on or after January 1, 2020:

For the XO Communications services listed in Attachment A: Moves, additions and changes ('MACs') will no longer be permitted for existing XO Communications customers (the services will be 'grandfathered'). MACs will be provisioned on Verizon services and managed via a Verizon customer portal. New customers will not be able to buy these services from XO and will be able to buy comparable services from Verizon.

For the services listed in Attachment B: Existing customers can continue to make MACs, but new customers will no longer be able to buy these services (these services will be 'soft grandfathered') and will be able to buy comparable services from Verizon.

Please note that only the XO Communications services listed in attachments A and B are affected by the changes in this notice. For other XO Communications services, customers have been notified separately about changes in service.

¹ XO Communications refers to XO Communications Services, LLC (One Verizon Way, Basking Ridge, NJ 07920) and XO Virginia, LLC (One Verizon Way, Basking Ridge, NJ 07920)

The changes are subject to regulatory-agency approvals, where required, and contractual obligations.

In spring, 2020, the services listed in attachments A and B will move automatically to Verizon billing and management systems with no changes to the underlying network and IP addresses.

If you anticipate needing to move, add to, or change ('MAC') a service listed in Attachment A after January 1, 2020, a Verizon contract will be required.

On behalf of XO Communications, a Verizon company

The following notice applies to the services listed in Attachment C and is required by the Federal Communications Commission ("FCC" or "Commission") and is applicable to the following federally regulated XO Communications services: Ethernet Private Line, IP-VPN MPLS, Private Line - TDM Transport, Ethernet Hub, IP-VPN VPLS, XO IP Flex, XO ESIP, XO Hosted PBX, IP Flex with VPN, Wavelength, Colocation and certain long-distance and toll free service offerings.

The FCC will normally authorize this proposed discontinuance of service (or reduction or impairment) unless it is shown that customers would be unable to receive service or a reasonable substitute from another carrier or that the public convenience and necessity is otherwise adversely affected. If you wish to object, you should file your comments as soon as possible, but no later than 15 days after the Commission releases public notice of the proposed discontinuance. You may file your comments electronically through the FCC's Electronic Comment Filing System using the docket number established in the Commission's public notice for this proceeding, or you may address them to the Federal Communications Commission, Wireline Competition Bureau, Competition Policy Division, Washington, DC 20554, and include in your comments a reference to the §63.71 Application of XO Communications Services, LLC and XO Virginia, LLC. Comments should include specific information about the impact of this proposed discontinuance (or reduction or impairment) upon you or your company, including any inability to acquire reasonable substitute service.
